(ii) Universal Annual Pass Fare Program

(a) Employers within the TriMet district may purchase annual passes (“Universal Passes”) for their qualified employees based on worksite location(s) subject to this Paragraph DE and administrative program requirements established for the Universal Pass fare. The employer shall be required to enter into a written contract in a minimum annual amount of the Adult Annual pass price for purchase of Universal Passes in accordance with administrative program requirements established for the fare. The pass price shall be calculated according to this Paragraph ED. For purposes of the Universal Pass fare, a
“worksite” means a building(s) located at one physical location within the TriMet district under the control of an employer, except as the context requires otherwise under paragraph E(3)(iii) below.

(b) Employers must purchase a pass for each qualified employee regardless of whether the employee uses transit at the time of purchase. For purposes of the Universal Pass fare, “qualified” employee means any person on or expected to be on the employer’s payroll, full or part-time (part-time is 80 or more hours per 28-day period), for at least six consecutive months, including business owners, associates, partners, and partners classified as professional corporations.

(i) An employee who works at multiple worksites is considered a qualified employee at the worksite of their cost center.

(ii) Contract employees, per-diem employees and/or temporary employees are considered qualified employees only if they are covered under the employer’s benefits package and have been included in the Employee Commute Options (ECO) Survey.

(iii) Exempted from qualified employee status are: volunteers, employees working less than part-time, field personnel required to use their personal vehicle as a condition of their job, employees whose regular work commute has either a start or end time outside of TriMet service hours, residents of the State of Washington, independent contractors, temporary or seasonal employees hired for a term of less than 6 months, employees exempted by the Oregon Department of Environmental Quality for ECO purposes, employees who already have an annual transit pass from another source, and regularly sworn officers of local law enforcement agencies within the TriMet boundaries and the Oregon State Police. The total number of employee exemptions shall not exceed 50% of the employer’s total employee population.

(iv) An employer who wishes to include in the Universal Pass program exempted personnel in the categories identified at subparagraph (b)(i) above, must purchase passes for all individuals in the category and must include all individuals in the category in the ECO Survey.

(c) The Universal Pass pricing structure is based on employer transit mode split. “Transit mode split” is defined as follows: (Total number of transit trips to worksite by qualified employees) divided by (Total number of trips to worksite by qualified employees). If more than one commute mode is used to travel to a worksite, the commute mode for the longest portion of the trip constitutes the determined commute mode. Transit Mode Split refers to the results from the most recent ECO Survey unless specifically stated otherwise in this Paragraph E.D.

(d) Employers shall survey their qualified employees to determine transit mode split using an ECO Survey. If an employer moves their worksite(s) or adds a worksite(s) during a
contract year, the contract price remains valid until expiration of the contract. The employer must re-survey to determine the current transit mode split and the price will be adjusted according to the new transit mode split. An employer with ECO Survey results showing a 0% transit mode split for two consecutive surveys shall not be allowed to participate in the Universal Pass program. Employer surveying shall be conducted in accordance with the schedule and other administrative program requirements established for the fare.

E. Employer Annual Pass, Universal Pass and the Flat Rate Universal Pass Program

(1) The Universal Pass fare instrument shall consist of the employee’s photo identification card with an affixed TriMet issued annual validation sticker or a TriMet approved eFare Program card (“eFare card”), and must be carried by the employee as proof of fare payment.

(2) If using TriMet issued validation sticker, employers shall provide the employee with a photo identification card which must include the employee’s name and the company’s name. The validation sticker must be placed on the photo identification card. An employee’s photo identification card with an affixed TriMet annual validation sticker shall be valid through the month and year designated on the sticker.

(3) Employers may use a TriMet approved eFare card, which shall be required to display the employee’s name and the employee’s photo, and may include the employee’s photo. If the approved eFare card does not include a photo, the employee may be asked to display other valid photo identification as proof of their identity. Employees are required to tap their eFare card prior to each vehicle boarding and upon occupying any district areas requiring proof of fare payment.

(4) Employers shall verify employee status before providing an individual with a Universal Pass fare instrument. The Universal Pass fare instrument may not be provided to or used by non-employees, is non-transferable and is a valid fare instrument only for the person whose name appears on the card.

(5) A Universal Pass fare instrument shall allow travel for TriMet services within the District, including regular service and door-to-door LIFT service.

(c) Subject to subparagraph (e)(i) below, the pass price shall be calculated on an annual basis, from September 1 through August 31. For employers purchasing the pass mid-year, the price shall be pro-rated based on the number of months remaining in the year (September 1 through August 31).

(6) For each employer contract, TriMet will issue Universal Pass fare instruments, subject to Paragraph G below, for all qualified employees at the contract price. If an employer hires additional qualified employees during the contract term, the employer shall purchase additional fare instruments at the prorated cost for the additional new hires.
Employers may re-sell the Universal Pass fare instrument to their employees however the price shall not exceed the employer’s purchase price per employee.

(c) The pass price paid by employers for Universal Pass under a written contract is subject to adjustment to include any Adult Annual Pass fare increases adopted by the TriMet Board that take effect during the term of the Agreement. Employers shall pay any Universal Pass price increases during the term of the Agreement in accordance with administrative program requirements. However, the total amount of increase shall not exceed 3% of the employer’s per pass price that was in effect on September 1 (or the effective date of the contract).

(2)(f) If an employer wishes to include a category of exempted personnel in the Universal Pass program after commencement of the Universal Pass year who were not included in the employer’s Employee Commute Survey, the employer must first conduct an Employee Commute Survey for the category. The employer’s company transit mode split will be recalculated based on the results of that survey, and the employer’s price per employee for the remainder of the Universal Pass year will be based on the new transit mode split.

(3) Universal Pass Price

(a) Regional Price

Employers meeting the requirements of this Paragraph 5(b) are eligible to purchase Universal Pass at the regional Universal Pass price as follows:

(i) The minimum per pass price shall be $50.00.

(ii) The minimum per pass price shall be $50.00.

(ii) For first and second year participation in Universal Pass, the per pass price shall be: \( \text{Transit Mode Split} \times \text{Adult Annual Pass Price} \) calculated at the beginning of each contract year.

(iii) For third year participation in Universal Pass and every year thereafter, subject to (a)(ii) and (c)(ii), the per pass price shall be calculated at the beginning of each contract year by \( \text{Transit Mode Split} \times \text{Adult Annual Pass Price} \). However, when that price exceeds either (1) 10% of the employer’s previous year’s adjusted per pass price, or (2) the employer’s previous year’s adjusted per pass price by $20 or more, the employer shall pay either a 10% increase in the adjusted per pass price or a $20 increase in the adjusted per pass price, whichever is greater. “Adjusted per pass price” means the previous year’s per pass price plus the percentage increase in the weighted Adult Annual Pass Price (fare) from the previous contract year.
An Employer’s price per pass shall not decrease more than 5% from the previous year’s price, except that an employer that moves to a new location with a significant decrease in transit service shall not be subject to the 5% limitation.

If, during an employer’s third or subsequent year of participation in Universal Pass, TriMet places a new fixed transit service facility (e.g., new light rail lines, stations, commuter rail, busway) within ½ mile of an employer’s worksite, the employer will be required to resurvey their employees and pricing shall be calculated as set forth below for the following year:

1. Employers who have multiple worksites must resurvey their employees using the same method as was used in the employer’s most recent prior survey.

2. The following year’s pricing will be: (Transit Mode Split) X (Adult Annual Pass) price, but not less than $50.00 per pass. Pricing for subsequent years will be determined as provided by subparagraph (3)(a)(i) through (iii).

Flat Rate Price

The Flat Rate Universal Pass price applies to employers who elect to create a separate zone (“Flat Rate Zone”) in which all employers within the zone pay the same flat rate, regardless of the actual transit mode split of each individual employer. In order to qualify for a Flat Rate Zone Fare area, the Zone must meet all the following criteria:

(a) The area must have specific identifiable boundaries;

(b) The area must contain at least 5 employers and 5,000 employees, and approval of creation of the Flat Rate Zone shall be secured from employers representing 75% of the qualified employees of the area;

(c) The area must have an existing formal Transportation Management Association;

(d) The area must have a partnership agreement with TriMet, designed to increase use of alternative transportation modes and decrease reliance on single occupant vehicle travel to the worksite.

(e) Employers in a Flat Rate Zone are not eligible for the Regional Universal Pass price. All employers within the Flat Rate Zone who participate in Universal Pass must pay the Flat Rate fare price.

(f) Subject to Paragraph (6)(c) above, the Flat Rate fare price is calculated as follows: (The aggregated transit mode split of employers in the area who are participating in Universal Pass) X (Adult Annual Pass Price).
(g) The average transit mode split of employers in the area participating in Universal Pass is determined using the Employee Commute Survey and is calculated as: (Total transit trips to the worksite for employees of all participating employers) divided by (Total trips to the worksite for employees of all participating employers). Participants in the Universal Pass Flat Rate Fare Zone shall survey each year before June 30.

(h) Participants in the Lloyd District Employer Universal Annual Pass Flat Rate Fare Program are eligible for the Flat Rate Price as set forth at Paragraph (f) above, which shall be subject to transition pricing defined as follows:

(i) For the contract year 2009-2010, the price per pass shall be: (the Adult Annual Pass Price in effect during the term of the contract) \( \times \) 0.2695.

(ii) For the contract year 2010-2011, and for each subsequent contract year, the price per pass shall be calculated as: (the aggregated transit mode split of employers in the flat rate area who are participating in the Lloyd District Employer Universal Annual Pass Flat Rate Fare program) \( \times \) (the Adult Pass Price), subject to fare increases as provided by Paragraph (f)(c) above. However, when that price exceeds 5% of the previous year’s adjusted Flat Rate per pass price, the employer shall pay no more than a 5% increase over the previous year’s adjusted Flat Rate per pass price. The aggregated transit mode split of employers in the Flat Rate area shall be determined using results from employee commute surveys conducted during the 2009-2010 contract year.

(iii) When the Flat Rate per pass price as calculated above at subparagraph (ii) no longer exceeds 5% of the previous year’s adjusted Flat Rate per pass price, then the per pass price for that contract year shall be recalculated using results from the most recent employee commute surveys according to Paragraph (f)(c) above.

(iv) “Adjusted per pass price” means the previous year’s Flat Rate per pass price plus the percentage increase in the weighted Adult Annual Pass Price (fare) from the previous contract year.

(i) If an employer wishes to participate in Universal Pass at more than one worksite, the employer must survey qualified employees at each worksite separately to determine the transit mode split at each worksite. Each worksite’s price per pass is based on the transit mode split at that site.

An employer with multiple worksites, who also has a worksite(s) outside of the TriMet district may participate in Universal Pass at the out-of-district worksite(s) subject to the following:

(i) The total number of employees to be enrolled in Universal Pass located at the out-of-district worksite(s) must be less than 25% of the total number of employees enrolled in Universal Pass located at worksite(s) in the district.
The per pass price for all employees located at employer’s worksite(s) outside the district shall be the aggregate per pass price of all the employer’s worksites within the district.

When an employer’s worksite location extends across Regional and Flat Rate Pricing zones, the pass price shall be based on the location of the employer’s business address of record.
