Station Entrances - Looking East
Station Entrance - Looking North
Station Platform - Looking South
Station Entrance - Looking South
Public Art - Glass Etching Designs
Public Art - Mosaic Tile Columns
Public Art - Final Design
Construction Impacts on Bybee Blvd

Completed
• Pile driving foundations for bus pullouts

Ongoing, through early 2014 – work off bridge but adjacent to sidewalk
• Intermittent sidewalk closures (one side at a time)

Summer 2013 – installation of girders for bus pullouts
• Potential short-term lane and sidewalk closures (while crane lifts girders into place)

Summer/Fall 2013 – construction of bus pullouts and new sidewalks
• Traffic reduced to one lane during non-peak hours, with flaggers controlling traffic between 23rd Ave and top of bridge (weekdays for several weeks)
