Equity Analysis/Title VI Conclusions

1. A greater share of the region’s minority and low-income populations stand to **benefit** as compared to non-minority and higher income populations.

2. Found **no disproportionate and adverse effects** from the one major service reduction (Line 152). Proposed changes do reduce access to some jobs in North Clackamas County while reducing travel time and increasing frequency to others.

3. Proposal **creates new access** to nearly 40,000 low/medium wage jobs, and **improves access** to over 230,000 low/medium wage jobs.
Public Comment

• Round one feedback was strongly positive. We did receive some concerned comments about the Line 152 proposal to remove TriMet bus service from the Milwaukie Center.

• The comments from the second round of outreach were still strongly positive. The proposed new routes continued to receive good feedback (162\textsuperscript{nd} and Denney/Hall).

• “Awesome!!!! Just when you think it's perfect you go and make it better”
