Subject: RESOLUTION 17-05-44 OF THE TRI-COUNTY METROPOLITAN TRANSPORTATION DISTRICT OF OREGON (TRIMET) AUTHORIZING THE ISSUANCE OF REVENUE BONDS

1. **Purpose of Item**

   The purpose of this item is to request that the TriMet Board of Directors (Board) adopt a Resolution authorizing the issuance of revenue bonds to provide $51 million for projects plus additional amounts that are required to pay costs related to the bonds, including costs of issuance, capitalized interest, and funding debt service reserves. TriMet estimates that the total principal amount of revenue bonds required for this purpose will not exceed $55 million to pay for costs of issuance plus the costs of transit projects and transit supportive systems, such as projects in TriMet’s Capital Improvement Program, Oregon Department of Transportation projects, and Safe Routes to Schools projects.

2. **Type of Agenda Item**

   - [x] Other Issuance of Grant Receipt Revenue Bonds

3. **Reason for Board Action**

   ORS 287A.150 requires Board approval and a publication of notice before bonds may be issued.

4. **Type of Action:**

   - [x] Resolution
   - [ ] Ordinance 1st Reading
   - [ ] Ordinance 2nd Reading
   - [ ] Other

5. **Background**

   This resolution authorizes the issuance and sale of revenue bonds to pay capital costs as noted above.
The bonds authorized by this resolution will be secured solely by future Federal Metropolitan Transportation Improvement Program (MTIP) grants received from Metro. The region, through Metro and the Joint Policy Advisory Committee on Transportation (JPACT), has allocated future MTIP grant funds to pay debt service on the bonds and Metro approved an intergovernmental agreement pledging these future grant receipts on May 18, 2017. Metro is the federally mandated metropolitan planning organization for the Oregon portion of the Portland metropolitan area and is responsible for approving the expenditure of all federal transportation funds in the region.

These bond proceeds will meet the region’s intent to augment TriMet’s capital program by partially funding the Division Transit and Southwest Corridor projects as well as addressing other regional transportation funding needs by creating a funding mechanism for the following projects:

1. Division Transit: $25 Million
2. Southwest Corridor: $15 Million
3. ODOT Bottleneck Project Development: $10 Million
4. Safer Routes to School: $1 Million

This is a first step toward implementing JPACT and Metro actions establishing this funding program in spring of 2016.

6. **Financial/Budget Impact**

MTIP grants will be pledged to pay debt service on the bonds, and are anticipated to fully cover all debt service payments. To date, TriMet has received all MTIP payments that were pledged to cover debt service payments on the Series 2011A Bonds under a similar agreement. As an additional security measure to increase the bond rating and reduce interest costs, TriMet also intends to pledge its receipt of federal funds under the federal Section 5307 program (Urbanized Area formula funds). This bond structure is consistent with the funding structure in plan under the outstanding 2011 Capital Grant Receipt Revenue bonds.

The proposed bond issue complies with and is consistent with TriMet’s Debt Management Policy and Strategic Financial Plan (SFP). The Debt Management Policy provides that Debt secured by grant revenues can be issued when the anticipated receipts are sufficient to meet all debt service requirements, which is anticipated for this issue.

7. **Intent to Reimburse**

This Resolution also declares TriMet’s official intent pursuant to Section 1.150-2 of the Treasury Regulations to reimburse itself with the proceeds of the Bonds for and expenditures on the funded projects paid before the Bonds are issued.
8. **Impact if Not Approved**

If this Resolution is not approved, TriMet will be unable to issue the MTIP grant backed Revenue Bonds as anticipated by the Metro IGA.
