Discussed the recent tragedy on MAX and the Committee’s desire to ensure the system feels safe and welcoming to all riders. Members reaffirmed their ongoing opportunity and role in continuing to inform the approaches TriMet and its partners exercise related to system safety and security.

Received work plan updates:

- **Low Income Fare** -- Transportation package is still alive and with it, our hopes for being able to implement a low income fare program.
- **Contracting** – TriMet is partnering with Metro and other regional agencies to identify construction project opportunities that would allow the region to better forecast upcoming employment and training goals specifically related to ensuring a diverse workforce in the region’s construction industry and supporting more certified firms in securing contracting opportunities as well.

Due to a disruption from the audience, President Warner cautioned the speaker(s) that they were out of order and that the business meeting was in progress. The disruption continued and President Warner suspended the meeting at 9:45 a.m. -- the meeting reconvened at 9:55 a.m.

- **Metro Policy Advisory Committee (MPAC)** – Craig Prosser stated that the Committee met on June 14 and received reports on local business opportunities – no transportation issues were discussed.
