4. **Resolutions**

   **Resolution 19-04-25 Authorizing a Contract with Wells Fargo Bank, N.A. for General Banking Services**

   Doug Kelsey introduced resolution 19-04-25, which provides banking and treasury services for deposits, disbursements, cash management and safekeeping services from Wells Fargo. The maximum amount for this contract is about $872,000 over a period of up to ten years. TriMet has used their services since 2019, but an RFP was issued to ensure the agency is getting the best value for serviced rendered. Staff presented a summary of the services and answered the Board’s questions.

   Director Stovall informed the board that the Finance and Administration Committee conducted a thorough review of the bids received in the RFP process and recommends approval of the resolution.

   Director Edwards shared his concern that Wells Fargo, as well as other large banks, does not have a good reputation for social responsibility. He referenced their involvement in the Dakota Access Pipeline as an example. He added that other organizations he’s involved in have ended their relationship with these banks and suggested that TriMet take this into consideration.

   Director Wai asked if it would be possible to revisit the other proposals received in the RFP process. Zach Cooper from TriMet’s Procurement department addressed the question and said doing so would require a new solicitation. A discussion ensued among the Board and staff about the growing concern among businesses to align with other organizations who share their values. They discussed TriMet’s procurement process and the potential need to revisit the RPF review criteria, specifically for the vendor’s corporate social responsibility policies. Director Edwards expressed a desire to be engaged in the process and requested a meeting with the procurement team. He also suggested that a letter be drafted to Wells Fargo. The intent of the letter is to inform the bank that TriMet would prefer to do business with entities who take
corporate social responsibility seriously and let them know the agency will be watching for improvement in this area. A draft letter will be sent to the Board for review prior to being submitted to Wells Fargo.

President Warner summarized the potential actions to be taken by the Board on the resolution including 1.) Approve 2) Oppose or 3) Delay for further discussion at a future meeting. He noted that approval of the resolution would result in a savings of approximately 25% of current fees, as Wells Fargo is currently providing financial services for TriMet. He added that as TriMet works to refine its procurement criteria they could revisit the relationship with Wells Fargo or select another institution.

Action: Linda Simmons moved approval of Resolution 19-04-25; Travel Stovall seconded the motion. Directors Warner, Stovall, Simmons, Irish Bauman, Gonzalez and Wai voted in favor of the motion; Director Edwards was opposed. The motion passed.

He reminded the Board that in January 2019 Resolution 19-01-03 was passed, authorizing the General Manager to secure up to $60 million in revolving lines of credit. The availability of these funds is necessary to help offset shortfalls due to various factors including the uncertainty of federal funds as well as gaps in local revenues such as HB 2017. Resolution 19-04-27 would authorize a contract with Bank of the West to provide that revolving line of credit. Staff presented a summary of the services and answered the Board’s questions.
