Agenda

A. 9:30 - Call to Order and Introductions – Committee Co-Chair

B. Future Vehicle Specifications

➤ **Action Items**

- FX vehicles
 - Continue to advocate in making the third mobility space a priority. Is there a way to re-engage with the FX Standards team on this request?
 - Can the CAT take a group field trip to the Vine in Vancouver to view their three mobility-seating areas?
 - Add a bar that riders can hold onto that is next to the Quantum automatic securement.
 - The operator barrier makes it hard for mobility devices to turn and get into the securement position, is there a way to reduce the sizing a bit for a smoother entrance?
 - Look into the side facing seats / co-pilot seats as riding sideways can be hard on people's bodies.
 - Can the LED passenger information screens for rear facing passengers that are in the FX Standards be implemented into the current FX fleet?

- For the upcoming stops along 82nd, there is currently a 9 inch curb proposed, some members of the CAT would like to see a 12 inch curb go in to make mobility device boarding possible through the middle door.

C. Fare-paid restricted areas (FPRA)

➤ Action Items

- Consider placing extra HOP readers around platforms or on vehicles as riders may miss the ones posted at the top of platforms and there may not be ones at platform level.
- Caution when using fare gates, riders with limited mobility may have issues in opening them.

D. Communicating Service Disruptions

➤ Action Items

- 19th Street in Forest Grove, still no seating, shelter or posted notices, Justin to look into and provide updates.
- Oregon City has a temporary shelter but no arrival screens or ways to know when the times the buses are coming, will that be upgraded soon?
- Do service notices include when bus stops move temporarily or permanent or go under construction?

E. Open Discussion

➤ Action Items

- Can the CAT do a disability awareness training with safety & security teams
- Schedule new Gen bus shelter field trip once shelters have been placed.
- Relay that not all Operators at Beaverton Transit Center are not stopping at the common pick up locations to load passengers.
- Staff to look at December videos for ADA pass ups to see what the cause of the pass ups were.
- Be sure to look at pass up data on lines that are will experience service reductions.

F. 11:00 - Meeting Adjourned
